Navigation of Course on Mobile app

Disclaimer: The TrainingCentral mobile app is programmed to deliver the same superlative experience on mobile phones and tablets. However, mobile phone manufacture, while largely along standard specifications, can vary from make to make. You therefore will find some variance in your user experience as compared to accessing the courseware on a workstation or someone else's mobile. This is unavoidable.

1	Please follow the Steps 1 to 3 from the Help manual for the web browser to login to your LMS account for the first time and then change the password.	
2	After changing the password successfully, you will be navigated to the Home page. Scroll down to the bottom of the page and click on 'Mobile App' activity and select your Gmail account for google drive login.	3	You will be automatically redirected to google drive Moodle_V4.3.0.APK folder. Click on Moodle_V2.apk file name for downloading TC Moodle Android App. System will ask you for permission 'Do you want to install app?'. Click on Install for installing app. You may get a message asking for permission to install third party app. Please accept it.	
4	After successfully installing of app, it will display the 'TrainingCentral' app icon and name on your mobile home screen/App Drawer. Click on it to open the app.	5	Now, select 'I'M A LEARNER' option.	6	Enter the URL: https://greaterbank.trainingcentral.co.in/portal Then enter following details: Username: <Employee Id> Password: Greaterbank@123and click on 'Log in'.	
7	Click on 'Open The Change Password Page'. Then reset your password and click on 'SaveChanges'. (Please remember your new password.)	8	Again, enter your username and changed password and click on 'Log In'.	9	You are now in the app. Click on 'My Courses'. This will display the list of courses assigned to you. Click on the course which you want to startlearning.	
10	All the activities will be displayed here (Learning Module, Test, Assignment, etc.). Click on Activity Name (Course Name) -> Click on 'Enter'. It will take some time to download the package and after that activity will open automatically.	11	You can use “>” for next slide, “<” for previous slide and “||” for pause. The black bar shows the progress of each slide. You can't go to the next slide until this bar reaches the end.	
12	Once you complete the Learning Module 100%, you will be able to access the Test. Complete the test minimum passing is 75% to access Certificate.	
13	To attempt the Test, click on '**Attempt Quiz Now**'. Then click on the '**Start Attempt**' to start the Test.	14	Here you will get list of questions, select correct option / options and click on '**Next**' to access next question and '**Previous**' to access previous question.	15	Once you answer all question, click on '**Submit**'. Then click on '**Submit all and finish**'.	
16	You can re attempt your test by clicking on ‘Re-Attempt Quiz’. You will get total 3 attempts to pass the quiz.	17	After, completing test you will be able to access Certificate. To access your certificate, login to the LMS via browser and download the certificate.
